WE PERSONALLY INVITE YOU TO JOIN US...

The 8th Annual SimMagic is lined up to be a stellar genetic opportunity for Simmental and Sim-Influenced enthusiasts. It is always exciting for us to gather embryos from such proven matrons with a twist of the new exciting breed giants to offer progeny destined to write their own history books. It will not take long to get your wish list ready when you start to view the offering and jump start your Simmental program under the bright lights of Denver!

We would especially like to thank our sponsors for this high class event. Trans Ova Genetics is the premier organization for your embryo transfer, in-vitro fertilization (IVF), sexed-semen, genetic preservation and cloning needs. Trans Ova, again this year, has added a special service package consisting of an IVF cycle using reverse sorted semen with all proceeds going to the American Simmental Foundation to assist with youth activities. Always great to work with Lance Ellsworth and Cattle Visions, America's Premier Multi-Breed Semen distributor! Cattle Visions does an excellent job of online distributing. EDJE Technologies, who is a leader in web promotion and has been a marketing partner of Eberspacher ENT for the past 20 plus years; download the Eberspacher ENT App created by EDJE for "Hot News" and updates on the sales. Liveauctions.tv team is great to work with all year and we appreciate all they do for the Denver sales and another important firm that is there for all of us day in and day out, Jame Secondino Krieger with American Live Stock Cattle Mortality Insurance. Jame is a long time friend to us and all of you and has been there for everyone's insurance needs for more than 30 years. This event would not happen if not for great breeders excited to share the genetics of their programs and we greatly appreciate your dedication. It is a privilege and an honor to be your marketing partner.

Please accept this as your personal invitation to attend an elegant evening to purchase elite frozen genetics of the best cattle to grace our breed on Saturday, January 14th, at The Double Tree Denver Central. The social starts at 5:30 pm with hors d'oeuvres, baron of beef and cash bar with the sale breaking the ice at 6:30 pm MST. Remember to sign up early with liveauctions.tv if you are not able to attend. Looking forward to seeing everyone at The Double Tree Central!

Sincerely,

Val & Lori Eberspacher Kelly Schmidt

Val & Lori Eberspacher and Kelly Schmidt
EBERSPACHER ENTERPRISES, INC.

Elite Sim Genetics and Rare Semen

Settlement & Terms of the Sale: Purchase prices are due immediately after the auction. It is the responsibility of the buyer to handle shipping from the location of the embryos. Checks payable to Eberspacher Ent. Inc.

Announcements: Announcements made sale day and from the auction block during the sale take precedence over printed material in catalog or other printed material associated with the sale. Anyone attending this sale, attends at their own risk. Eberspacher Ent., or any of the sale force will not be held responsible for any personal injury for attending this sale.

EPDs: EPDs listed are Fall 2016.

Embryo Guarantee to the Buyer: Embryos are available for immediate shipping as soon as payment has been received by Eberspacher Ent., Inc. Terms of shipment are between the buyer and seller. The seller guarantees that each embryo package consists of Grade One eggs unless otherwise stated, and that they have been frozen by a reputable source. Sellers must warrant that they understand that they are responsible for guarantees made by the sales staff, and that they will help take responsible actions to insure the buyers of their lots are satisfied with their purchases.

Special Guarantee: *Sellers of embryo lots will guarantee the establishment of one (1) 60 day pregnancy per three embryos transferred.*

- A. The transfers must take place in the calendar year of 2017.
- B. Transfers are performed by Trans Ova or other certified embryologist facility.
- C. Buyers purchasing embryo packages that fail to establish at least one or two pregnancies, depending on the package offering, will be refunded their purchase price by the seller or seller must provide same generic embryos to the buyer.

Selling 1/2 Embryo Interest

The Black Star cow family has been one of the most dominating cow families of all times. These descendants not only get it done in the show ring, but continue to pass it along to the next generation. A descendant of this cow family can surely be seen at every major show in the nation! Z15 Star as we call her continues the tradition!! As most judges commented when we showed her – she’s the most complete, biggest ribbed, structurally correct, flat shouldered, sound as you can make one! I guess it’s time for her to write her own legacy, being the dam of the most dominating young bull of recent times, OBCC CMFM Deplorabull D148, winning Calf Champion honors at both Kansas City and Louisville and has a great chance at Denver. Here is your chance to be part of the tradition! **We are selling half embryo interest in the cow and no possession.**

Selling IVF Cycle Flush

Talk about opportunities that rarely ever come around! This IVF cycle on the \$65,000 high selling donor of the Hudson Pines Farm 2016 Living Legacy sale is sure to be a highlight of the genetic packages offered in Denver. We have had our sights set on acquiring a daughter of Miss Knockout 74T for a while and when we saw HPF/Borne Knockout Y030 leading the pack at Hudson Pines, we made sure we were bidding on her. Members of the Knockout 74T family have proven to produce high sellers, show winners, and valuable breeding pieces in many of the country's most progressive breeding programs and we believe that the same success will continue with Y030. She herself owns claim to the 2011 Reserve Champion Female title at the North American, while already having produced two State Fair champion females, a multitude of high sellers including a \$40,000 daughter by Uprising, and several division winners at the Simmental Breeders Sweepstakes in the last few years. If you saw her at The Living Legacy Sale in November, then you already know she is a unique combination of style, power, dimension, and flawless structure that is so hard to put together in one female. Add in that she is Dream On free and you have an endless list of mating possibilities. Even better is that she has averaged 14 good embryos in IVF and we are holding nothing back with an open top for the buyer, however, take note that this will be a one-time opportunity to buy a flush on Y030. So pick out your sire of choice and be ready on sale day. Seller guarantees six (6) embryos with an open top.

IVF services will be done by Trans Ova Genetics in Chillicothe, MO within 60 days following the sale. The buyer will be responsible for semen and IVF expenses.

Selling Flush to Bull of Choice

Here is a chance to get a flush on a female that drew a lot of attention in 2015 and 2016. She was Champion Percentage Female at the North Central Regional Classic, Reserve Overall at the American Royal Open Show, Reserve Overall at the NAILE Junior Show, Champion Percentage Cow/Calf at the Iowa State Fair, Champion Bred & Owned and Reserve Champion Owned Cow/Calf Pair at the National Classic. She was a tremendous show heifer and is an even better brood cow. If you had a chance to see her this past summer, you would know exactly what we mean. We are selling a right to flush her to a bull of the buyers choice. Guaranteeing 8 transferrable embryos with an open top. Work to be done by a certified embryologist, buyer responsible for semen and flush expenses.

This is the FIRST opportunity to purchase genetics out of the reigning NWSS Champion Percentage Female, Hook's Bella B72. Bella received many compliments during her show career. Her overall mass which is tied together with a beautiful structure and a set of crazy good numbers caused most to dream of how to make more like her. It has been fun discussing how to mate her because of her sheer versatility. W/C Relentless was the \$87,500 high seller in the 2016 Werning Production Sale and is backed by the infamous 8543U cow who needs no introduction in the Simmental breed. The combination of Bella with her amazing blend of physical and genetic traits and the sleek, cool fronted style of Relentless along with his calving ease and strong carcass values has the potential to generate incredible revenue through their progeny which represent remarkable progressiveness. Take advantage of this ground floor opportunity. It is guaranteed that more will be heard about this young donor in the future, and the ingredients are right to create unparalleled excitement with these offspring!

Pay attention here!! I could write two pages on this female and why these embryos could make you famous, but I'll summarize the best I can. In her first set of ET calves, embryos purchased from us, sired by Loaded Up, produced Lot 1 for Schaae Farms that commanded \$30,000 for 1/3 embryo interest and show rights only. You will surely be hearing about this female for years to come! She is a full sister to Chloe (now deceased), dam of the 2015 National Champion Bull, Blaze of Glory. Sweet Emotion is a direct daughter of JM Steel My Heart, who hails from the JM BF H25 cow family that is the bedrock of greats like HOC Broker, Dana N31, Miley Cottontail, and the list goes on and on. And lastly, to keep this brief, this female is impressive from every angle and passes on her power, depth and superb structure to her offspring. Embryo demand from this female has been incredible and we saved this magical mating to Loaded Up (full sib to high selling heifer mentioned above) for this very special event. These will be the last embryos from this mating sold this spring. These genetics are as hot as it gets; make sure your prefix is on them!

Seller guarantees one (1) pregnancy per package if implantation is performed by a certified embryologist.

Firefly Z227 is a perfect footed, big legged, wide topped individual with style and balance. As a four year old, she has raised three natural born heifer calves that have commanded \$7,500 \$10,000 and \$23,000. A \$13,500 average on the only three offspring to your name is a good way to earn your place in the donor pen in Sleepy Hollow. As the Grand Champion Cow/Calf Pair at the 2016 Simmental Breeders Sweepstakes, Z227 was noted for being sleek necked and monster barrelled while remaining fault free and flexible in motion. The resulting purebred progeny from either Classified or Distinction are sure to be some stylish baldies capable of generating big income.

We are selling 3 IVF heifer embryo's out of our donor HPF RIGHT TO LOVE Z338 and out Hudson Pines stunning and popular bull TKCC CLASSIFIED C106. The decision to sell this set of embryo's was not an easy one and created some debate but with the breeder response and success of the first set of calves out of HPF RIGHT TO LOVE Z338 we wanted to offer these. These will be the only egg's offered for sale out of this cow for the next calendar year. Be sure to come by our stall on the hill or stop by the sale isle, we want you to see just how consistent this donor female is. We are super excited to see the offspring of this mating. We all know the success of the great Colburn Primo has had the last calendar year in the Angus show ring mated with the consistency of our young donor HPF Right To Love Z338 the progeny of this mating should really put you in the purple. If you are in the market for new and exciting SimAngus™ genetics with predictability, be sure to consider this opportunity to add these to your herd.

Carcass: 28.1 -.25 .22 -.02 .83 114 69

The names in this mating read like a who's who of championship genetics: Duracell and Right To Love on top and Steel Force and H25 on the bottom. Together, they combine for this genetic masterpiece. Steel My Heart is a full sister to Broker. She possesses stunning phenotype, a dream disposition and the ability to pass on these traits to her offspring. Mated to a bull that won in Denver twice along with virtually every where else, Quantum Leap's calves have been commanding top dollar in sales across the country. The Pays to Believe embryos combine eye appeal, structure, great cow families and other genetic traits that run deep on both sides of the pedigree. There are many exciting possibilities when you use either this dam or sire in embryo production, but none may be better than these two together. A resulting heifer would help build any program.

Here is a mating to Blaze Of Glory, the 2015 NAILE Grand Champion Purebred Simmental Bull. This could produce an outstanding phenotype with a high API combination. The possibility of a show heifer or bull in this package will be very highly predictable. We are offering the opportunity to purchase one of the most popular combinations possible in the Simmental breed. Miss Star is the dam of the \$300,000 Kansas City and NAILE Grand Champion Bull, TL Bottomline. The sire of these embryos is the \$400,000 Herbstler and Hartman herd sire High Calibre. One can only dream of what this mating can create.

Selling 3 #1 Conventional Embryos by HILB Oracle C033R

Pedigree of Sire: LLSF Uprising Z925 x SS Babys Breath P035
Est Plan Mating EPDs: 8 .85 58 80 .14 5 24 53 * 12.15
Carcass: 18.55 -.36 .02 -.07 .72 105 63

Ms. Werning 4193B "Ashley" was our pick of bred females from the 2015 Werning Production Sale for \$29,000. We think this freaky necked Loaded Up daughter has an exciting future as a new donor for HILB & HS. Get in on the ground floor of what we think is the start of a really sweet cow family with embryos by the 2015 NAILE Reserve Purebred Bull, HILB Oracle C033R. We can not be happier with how he has developed and look forward to having many Oracle babies on the ground this spring. To have a purebred bull that cool necked, sound and big bellied is pretty special and we think he has a bright future as a herd sire in the Simmental breed especially being backed by the legendary Baby's Breath cow family. The combination of Ashley and Oracle should result in some giraffe necked, huge middled, super sound show string deluxes. When thousands of dollars are being thrown around on show heifers these days, #believeidbid on this opportunity and take a chance at making my own!

B125 was our selection from our good friends and partners, the Nelson's, in our 2014 Livin' The Dream Sale". This female was only exhibited one time, 2015 American Royal, where she was Sr. Division Champion. We realize from a show standpoint, that we did not do her justice to those that crowd the tan bark circles at every opportunity, but we acquired her for reasons beyond the arena. As a heifer calf she was one of the stoutest in that 2014 offering. Unrivaled based width, stoutness of bone, shear dimension, body, but yet had that youthful feminine appeal. In fact we are still amazed that we got her bought and damn happy we did. In her first year of production she dropped a near perfect udder, and weaned a stout SimAngus™ bull calf by Bush's Unbelievable that will be a headline in our 2017 bull sale. She's good and solid for a viable reason as she is influenced by some of the most proven genetics in the breed and her maternal granddam is a past champion, 2009 Jr. Percentage Champion at the N.A.I.L.E. The matings that are offered were made for us to transfer and not just a marketing play. We feel that the reversed sorted mating to Bottomline, the potential next Triple Crown sire, will be the best of both worlds in the breed. This mating should yield females that are appealing and balanced to the eye with substantial value. If you paid any attention at all to our 2016 Livin' The Dream sale, you would know what we think of our 2014 Denver sale stud, Battle Cry. His daughters commanded some of our highest gavel figures in our offering, but let's also make it known that his progeny were our highest weaning ratio sire group on the ranch at weaning time. His sons will highlight our Denver pen with other pen members from his potent dam. The Rhythm and Wicked cow families have highlighted our program for years, but we believe that Battle Cry's dam will join their high ranks in our program as we move forward, continuing to be breeders and not multipliers. REST ASSURED we think equally of this young donor, NFF Wicked B125, and look for her to be a herd and breed influencing female in the not so distant future.

Arguably the finest progeny out of the famed KenCo Glamorous line comes Steel Magnolia, the superb Steel Force daughter that began her successful career as the high seller in the 2012 KenCo Family Matters Sale... At that time, Ken Butner described her as "without a doubt the best show prospect we have produced at KenCo", and she has done nothing but improve with maturity. This big footed, big boned, big ribbed female has been stellar on the move since day one. Following a successful show career in Texas, she has proven to be a powerful donor force at Silent Night Farms in Texas. Everyone that visits the ranch points to Steel Magnolia and her calf from ANY sire, and says "I want that one!" If it wasn't enough that she has such a magnificent phenotype and pedigree that seems to work with any bull, she has an easy going temperament that she stamps on her progeny. In her short career to date, she has produced the high selling purebred Simmental calf in The Black Label Even, with three of her calves leading off the recent Land Of Lincoln Sale, to name just a few. Steel Magnolia has also shown great fertility, averaging 14 embryos per collection. The mating to the late great CARD Uproar is exciting and this is a young donor not to miss out on. Whether you choose the mating to the late great CARD Uproar or the bull of your choice, this is a young donor not to miss out on... She and her progeny are destined for greatness in the show ring and the donor pen!

Magnificent Dreams is a stellar black baldy female that has had many admirers and created quite a fan club, from her show career to being a mature mama cow in production. Celebrating a rich influence on Sloup's New Direction Sale and the impact she has made throughout the Simmental breed, T69 was quick to make her presence known. This cow family consistently produces cattle that are sound, functional, efficient and have an added attractiveness that makes them easily marketable. Progeny and frozen gems have sold to many progressive cattlemen and we have heard nothing but rave reviews from the breeders who have wisely invested. For this special sale, we are proud to offer sexed heifer embryos by TKCC Classified and Mr. CCF Vision. Darrin Barbour described Classified as an 'absolute masterpiece in motion', which is a definite understatement. While visiting with Darrin, he told me he has never laid eyes on a purebred bull that is so stout, big hiped, monster boned, smooth jointed and glides in motion. After our conversation was through, he sent me a phone video. WOW!!!!!! Needless to say, I wore my battery out on my phone replaying the video. While viewing bulls at Vogler Semen Center, I could not believe my eyes when I came to Mr. CCF Vision's run. While viewing this phenotypic perfectionist, and looking at his pedigree, I knew we must use this guy. After seeing several of this dude's daughters, being extremely big bodied and stout, yet maintaining femininity and looking like a female should, leads me to believe this mating will be very exciting. Don't miss the opportunity to acquire genetics from T69, a female to make a huge impact in your operation!

Many of you may have noticed that I invested in some really exciting donor prospects in the last two years. Here is a chance to purchase genetics from one of those fantastic young cows, FSCI Maria B407. I purchased this powerhouse female with my friends at Trennepohl Farms. She is an own daughter of CNS Black Star T702, the Schick donor that lit up the Denver sale last year commanding \$65,000 herself while Maria and her flushmate sister sold in the same sale for \$40,000 EACH! Embryos by two of the more popular, revenue generating bulls in the breed will be a wise investment for anyone. The Executive Orders have been winning shows and topping sales all fall. The Vision bull has been siring great phenotype cattle as well that will complement Maria greatly. Get in early on this great young female!

Y770 was brought in to strengthen our red herd and was the top seller in Kenners 2013 Sale. She knocked it out of the park on her first two calves and has been mainstay in our donor lineup. Y770 has a stunning physical presence being big ribbed, big hiped, with awesome structural correctness. The W/C Loaded Up embryos will be full sibs to her first daughter that sold for \$23,000 and is a donor at Hicks Cattle Company. The other choice is sired by the \$30,000 sale feature red bull from our 2015 sale, Red Answer 33B. His first calves look awesome and this mating will produce breed leading red genetics. A great chance to own some of the most progressive and unique red and black genetics we have to offer.

Bandy Maid 873 is just a flat awesome cow and has produced numerous champions. 873 is 13 years old and looks like she is 6. This mating just works period. You are purchasing full siblings to our Lot 7 in our first production sale that was calf champion at Louisville 2015 and Champion Female at the Dixie National 2016 for Fenton Farms, Eddins Farms and Hemmington. These would also be full siblings to the Reserve Percentage Bull at the National Western last year in MAC Wall Street who was also Champion Percentage Bull at the 2016 Dixie National.

Here is an exceptional genetic opportunity that you won't want to miss. Lazy H Shez Too Cool W58 has been a tremendous producer and stand out donor. She has produced the high seller the last 2 years at the Gettysburg Stars and Stripes sale. Her daughter by Fat Butt, SSC Miss Cool Butt 26A was the first, selling for \$10,000 to Pickerel Farms, GA. Last year, her daughter by Secret Weapon, SSC Victoria's Secret 49B set a new record, selling for \$37,000 to Whispering Hills Farms, the Mast family, OH. That same sale this past spring, we sold her Secret Weapon son SSC Shell Shocked 44B for \$17,250 to Fenton Farms, MS, and KenCo Cattle, TN. He is now in the Cattle Visions line up. Imagine having a full sib in your pasture!! Too Cool has worked with many different sires. No matter whether you want to go with the proven mating by Secret Weapon or the one that is also sure to hit a Home Run with the hot new 20-20, this will be a great investment.

The true legacy of any cow is determined by how she handles the test of time. The fact that Dew The Stroke is still in the front pasture proves that she has what it takes to make good cattle that will be desired quality of every cattleman. Her impact has been felt in our operation over the past half decade and we know that it will continue for many years to come. The Vision x Dew The Stroke combination has produced the best ever sire prospect to walk the pastures of C&C, Mr. CCF 20-20 (Owned with Hartman Cattle and Paulson). As of this past fall we have had our first 20-20 calves hit the ground and we are extremely impressed with the stoutness, elegant look and sound structure that he is passing on to his progeny.

There are few opportunities in this business to invest in genetics that are both phenotypically and genetically superior, so circle, star and tab this page! The first 3 heifer to sell from Gemstone averaged over \$10,000 and we believe that is just the beginning of her great future. Hailing from one of the most potent cow families in the business, Gemstone is blessed with generation after generation of maternal greatness. Her dam, Miss Awe 426W, is the lead donor at Tingle Farms and has produced countless champions and high sellers. Gemstone herself was the high selling bred at the 2014 North American Select Simmental Sale and earned many admirers in Louisville. An exceptionally powerful female with a massively constructed hip and loads of internal capacity, Gemstone still possesses femininity and remains smooth shouldered and flexible off both ends. Offering embryos sired by the hot new sire Colburn Primo (sorted female IVF) as well as WS Revival, the \$160,000 high seller that is stamping his progeny with blaze faces and immeasurable good looks!

Daisy Mae continues to be a mainstay in our operation, and her genetics excel in Simmental programs across the United States. We are always excited to share her Dream On free genetics. Due to her fertility and outcross pedigree, we are able to mate Daisy Mae to a variety of bulls. These two matings might be two of the best yet. The mating to JF Milestone would be a full sib to the Hudson Pines female they sold half interest in their sale to Long Ridge Farm for \$19,000. Both Ryan Haefner and Michelle Canning are excited about the impact this young female will have on both of their operations. The now deceased Two Step bull has been a female making mating for us! We have calves on the ground that have loads of eye appeal that we will market this spring. Daisy Mae has a long record of producing bulls and females that have lots of earning potential. Her Sharper Image daughter was campaigned by the Udell family, and Packin Heat was named Reserve Champion Bull at the NAILE. Take the opportunity to purchase two exceptional matings from the consistent, predictable Daisy Mae. Daisy Mae is homo polled and homo black.

The dam of this young donor, the late great Annie K, certainly needs no introduction due to her significant accomplishments garnered over such a short period of time. As the 2014 National Champion Female at the Fort Worth Stock Show and Rodeo, she and her calf made quite a stir and were the talk of the barns. When the opportunity arose to purchase one of the very few available daughters (especially a daughter that looks almost identical to her dam) we jumped at the chance. Annie Oakley has the same baldy face, bone and gut, tempered with class, elegance and sophistication that was admired in her day. We are excited to offer an outstanding mating of this young donor to sexed Hammer semen, which will provide show heifers that in turn become donors themselves.

In a world where good purebreds can be hard to find, we feel like we are setting on a gem with B403. B403 was a \$10,000 high seller in the NAILE sale a few years ago that went on to be the Eastern Regional Champion PB and was a favorite of many as a bred in Louisville. A beautiful baldy, B403 is an Uprising out of the Sheza Beauty U823, who is a flushmate to the great Steel Force bull. U823 continues to excel for the Hecksel and Hillbrand programs in MN, Hecksels actually sold a \$25,000 flushmate to B403 last fall. There isn't a cow on the farm that excites me more than B403, we feel the extra look and style she carries and passes along will help set her apart from rest. This mating to Grand Fortune could be something very special.

Chris and I never dreamed what would happen when we sat down with Larry Coleman at the Denver Stock Show and asked him to use Meyer 734 on one of his Angus to make us a great set of SimAngus™. Thanks to him for choosing Coleman Donna 386. She has gone on to write her own history in the Angus breed as well as the Simmental breed through that flush. Donna 73T and Donna 83U are flush mates of Sandeen's 7386, the \$140,000 valued dam of Sandeen Upper Class, and 8386, the Sandeen matron whose offspring have averaged over \$15,000. This powerful cow gives nothing up to them and her mating to Pilgrim should prove exciting.

In our extensive quest of a high caliber female to add to our programs, we came across Sandeen Donna 3001. Creating a lot of chatter and being the high selling bred female in Sandeens 2014 Buildin' A Brand sale, Donna now resides in Nebraska. Best described in the Sandeen sale catalog as a female "undoubtedly possessing that 'Donna' look that true cattlemen have come to desire, with her massive sweeping rib cage ,fluid movement, and her absolutely flawless front one-third, 3001 is backed by two of the most consistently productive and highly thought of cows of their respective breeds, Coleman Donna 386 and Miley Cottontail."

We wholeheartedly believe that Sandeen Donna 3001, being bred generations deep with consistent, productive matrons, will earn her own pages in the Simmental history books one day. Don't miss out on an excellent opportunity to acquire these elite genetics by investing in the first ever frozen gem from a female you'll be hearing a lot more from in the future.

Here is a chance to buy POPULAR, FRESH GENETICS from a UPCOMING HOT COW LINE crossed with two influential herd sires. K-LER Barbie was purchased for \$20,000 in last year's "The One" Sale. She has turned into the big massed, easy keeping, eye appealing donor we expected. Barbie is a maternal sister to K-LER Kingsman and K-LER Dolly's Queen who are features in this year's Denver sale (both sired by Executive Order). Barbie's dam was the \$21,000 Gateway herd pick from the 2012 Denver sale. Barbie's sire K-LER Young Money was a 2-time Denver Division Champion (calf & 2 year old), and he is a son of the past Denver Champion, Denver high seller, K-LER Sweetness. These embryos are potentially the fourth generation of Denver high sellers.

Miss CCF Sheza Looker T35 had a very successful show career being in the spotlight multiple times. With that being said, her track record as a donor is even more impressive. Having two daughters, Miss CCF Sheza Bonnie and Miss CCF Sheza Dreamer, as donors that are now writing their own chapters. She still is impressive today with her overall maternal features and still maintaining her perfect one third and stomping ground with perfect structure. We feel the mating of either Broker or Vision will be a home run with Looker.

Stemming from the heart of our operation, Miss CCF Sheza Bonnie exemplifies the goals that we have set for ourselves in the Simmental breed. Her days in the back drop may be over but her days of making the "right kind" are just beginning. This two time Reserve National Champion Female traces back to the ever popular Sheza Looker, who herself was slapped Champion Female at the 2009 Simmental Junior Nationals. Bonnie's progeny has caught the eye of many producers around the country and rightfully so. These cattle take that ground consuming stride we all like and cast a silhouette second to none. We feel the To Step mating is just what the doctor ordered.

You would have to look far and wide to find a cow with the versatility and ongoing success of Lady 865U. She is a breed matron that has clicked with so many sires over her amazing career. This one of a kind donor is responsible for a lot of the successes at Janssen Farms, IA, producing countless high selling sons and daughters over the years. Those offspring have gone on to perform at a high level not only in the show ring but in the production ring for their new owners. Lady 865U is the dam of the \$30,000 B&L Southern Charm that was produced from an embryo purchase and shown so successfully by Landon Hall, KY, before selling half interest to Keith Lambright, IN. Another daughter by Upgrade was a \$42,500 top seller of her calf crop. While yet another daughter was the \$17,000 selection of Hudson Pines and is now a member of their elite donor lineup. Brent Hall made daughter, JF Lady 3162A, was the top selling bred at \$10,000. However, 865 is not limited to top end female production. She has such bulls as JF Domination 1014Y and JF Performer 039X to her credit.

The Ginger cow has definitely made her mark for us! She started her young career by winning banner after banner as a show heifer, but now more important she is doing it as a cow. Her first crack at it in the donor pen, she produced LHT Making Tracks. He first won Reserve Champion Bull at Iowa State Fair and then went on to sell for \$19,000 for half interest. It's no surprise...what would you expect from the Bernadette cow family that has produced so many champions and high sellers in the Simmental Breed? Pick your poison with these two matings or choose them both and let them put you in the driver's seat!

This young donor is a daughter of the legendary Cottontail who many would regard as the top donor in the Simmental breed. This Pays to Dream donor is sharp made, super feminine, deep sided, and extremely complete. In the 2015 Head of the Class sale three Pays to Dream daughters sold for \$10,750, \$7,250, and \$5,000. 1166Z genetics have been purchased by Chris Woerner, Dale Prochnow, and Glacier Cattle. The anticipation of the Mr. CCF 20-20 progeny is mounting, and we think that this mating will produce high quality females.

Remember The Player bull from Denver last year? He was labeled by many as the best bull in The Yards of any breed! Just study the picture of this young, upcoming donor. Dribble may not be the most stunning name for a donor, but I guarantee you will see more of her and her progeny in the future. She is a sound, ground pounder of a half blood with an impressive EPD profile. Did I mention that Player is only her 3rd calf? Her second calf was retained for a replacement and raised our second high seller on our online sale this fall. She will be headed to the donor pen with her mother soon. What an incredible opportunity to get these matings put in cows even before us!

FVF Glitter in the Air is a member of the legendary dream cross mating of Black Glitter and BC Lookout. The Black Glitter family is having tremendous success in the sale and show ring. They have proved themselves to be even better in production. Hip, rib, top, bone, shape, dimension and soundness tied into a zip front end are all attributes Glitter in the Air possesses. Her first daughter, by Broker, was the 2013 high selling open heifer in THE ONE. Three daughters have shown very well in Denver, all standing second in their classes behind division winners. In her short career she has surpassed the \$100,000 mark in progeny and embryo sales. The mating choices of W/C BULLSEYE, The 2014 top seller at Werning's, by Lock N Load and out of Miss Werning KP 8543U. The Steel Force mating provides a solid base in the pedigree to the legend, having consistent high sellers and show winning progeny. These mating are exciting!

Last year we set out to find a donor female that would not only impress us with her phenotype but on paper as well. We found this female in the Genetic Connection sale where we purchased her as the high selling lot. She is the closest thing to the ideal donor that we have found. She is massively made in a moderate frame. She has a perfect udder and is sound on the move. She is massively made in a moderate frame. She has a perfect udder and is sound on the move. Her first calf for us will be a sale highlight this spring in our bull sale. Her EPD profile is simply amazing. She ranks in the top 5% of the breed in eight different traits including the top 1% for API. Her carcass and maternal numbers are incredible. She is mated to make stout made purebreds that will read off great on paper.

Praised by both seed stock and commercial breeders alike, Executive Order quickly made his way to being the hottest Simmental bull used this year. He was the high selling bull at \$71,000 in the 2015 Werning Cattle Co. bull sale and is probably the most versatile Simmental our breed has seen in some time. Hetero for color and homo polled, this United son has a whale of a set of number and is the natural calf of one of Wernings most profitable donor, 8543. This female certainly needs no introduction and consistently raises gorgeous heifer calves that flat out get it done in the show ring and make beautiful donors. It didn't take long for EO progeny to start catching the attention of Simmental Nation. These calves come small and are at the top of the scales at weaning time. Daughters AND sons have already hung banners at state shows, Kansas City & Louisville and there was never more attention on a sire group then EO calves in our show strings this fall. Guarantee you will hear more about EO progeny in the future. He is a true "fix" to what we have all been looking for...stellar phenotype & structure with an unmatched genetic profile. 165 API..lets be honest, we all have some cows that could use a little EO magic. This is the only sexed heifer semen we have offered, don't hesitate, now is the time to invest in a truly great bull.

Top selling bull from our 2013 sale!

Loaded Up sired an awesome first calf crop with his first daughter commanding \$23,000. He is a true "improver" with the most incredible feet and legs we have ever seen. He has huge feet with depth of heel and ultimate flexibility. Use Loaded Up to add structural correctness, extension and hip design. He is a bull to turn your "plain Jane" cows into "cash cows". Reports of progeny selling for \$90,500; \$65,000; \$30,000; \$25,000; \$23,000; \$20,000; \$16,000; \$14,000; \$14,000 & \$10,000! A true legend in the making!

Carver was the \$34,000 high selling bull in the Kearns Cattle Company Bull Sale. He was the lead off bull in the 2016 National Western Stock Show Grand Champion Pen of Three Simmental Bulls. He offers an unsurpassed look of balance and stoutness with a flawless build. His dam, Dolly, has become a household name due to her ability to generate multiple 5-figure her sire prospects from an array of matings. He will stamp his progeny with his unprecedented three-dimensional look. This is the first sexed female semen being offered for sale.

A historical sire in terms of adding muscle in the right kind of package. Lock N Load may have had the most impact on the Simmental breed with the least amount of semen used of any bull. His sons and grandsons are wanted by the most progressive commercial ranchers across America. Very limited semen available.
