Due to the interest in this 820Y bull, we have added him to the sale as a supplement lot. We will sell him ahead of the scheduled lots, so we will not disrupt the Superior Livestock broadcast. He is a bull we intended to keep as an in-herd sire, but decided to sell possession and 1/2 semen interest. Him, lot 3 and another bull were bulls we stewed about when it was time to do the catalog. We decided to sell lot 3 and retain the other two. We really only need one as a clean up pasture sire. They were all 3/4 Lucky Cross bulls that fit our program regarding figures and phenotype. The distinguishing qualities of this 820Y bull are his flawless skeletal soundness and overwhelming body capacity. He is a powerful prospect and deserves your consideration if you are looking for a top flight bull.
