43rd Annual Association Sale

Minnesota
STATE SIMMENTAL ASSOCIATION
Sale 2016

NEW LOCATION: HAAS LIVESTOCK
28701 Rochester Blvd.
Cannon Falls, MN 55009
Welcome to the Minnesota State Simmental Sale!

43 years and going strong!

Welcome to the 43st Annual MN State Simmental Sale! Please accept this invitation to join the Minnesota Simmental Breeders as they celebrate the annual meeting, banquet and State Sale in a new location at Haas Livestock, Cannon Falls, MN.

The breeders dedicated to this long running sale have brought you genetics from the heart of their herds and cattle with pedigrees rich in profitable breed leading genetics. The new location has allowed for a deeper set of bred females and cow/calf pairs as well as fancy open show prospects and probably the deepest set of herd bull prospects in some time. Top end frozen genetics to add to your wish list and propel your breeding program forward. It is always a fun filled weekend of fellowship, quite a few laughs and top notch cattle.

Give us a call if we can help you with any of your marketing questions. See you in Cannon Falls, MN!

Eberspacher Enterprises Inc.

NEW INCENTIVE PROGRAM FOR JUNIORS SPONSORED BY THE MINNESOTA SIMMENTAL ASSOCIATION

The Minnesota Simmental Association is sponsoring a new incentive program for juniors. When a junior purchases an open female at the annual MN State Simmental Sale, the junior can reconsign the heifer as a bred for the next year’s auction, or if the junior purchased a bred female, they may consign her resulting off-spring to sell at the next year’s auction. When the junior brings back the animal to sell, they will only be charged 1/2 of the usual sale’s expenses. This is a one-time option available to all juniors. Animals must be purchased and resold during consecutive years to take advantage of the program. Consider the opportunities as you study your 2016 MN State Sale catalog!

Whitney Olson is a senior at Alexandria Area High School and in her second year as a PSEO student at Alexandria Technical and Community College. Along with school she is a three sport athlete, competing in Cross Country, Figure Skating, and Track and Field. Whitney is proud to be involved in 4-H, FFA as an officer, and her own self developed program, Kids 4 Agriculture where she works with an inner city Chicago 2nd grade class promoting and teaching agriculture. Her passion is the cattle industry and has been showing Simmental cattle for the past six years. After graduation Whitney will be attending NDSU majoring in Ag Communication and Ag Business. Two of her favorite quotes are: “With Great Opportunity comes Great Responsibility” and “Champions are made at home”. Whitney is honored to be a Minnesota Simmental Queen candidate.
From Your Association Presidents:

Greetings,

We are one month into an exciting 2016 and are looking forward to the 43rd Annual Minnesota Simmental Association State Sale and Annual meeting festivities. As you all know, this is an exciting event that allows us as breeders to come together for fellowship and to help forward this exciting breed of cattle. An exciting change for this year’s State Sale is the change in venue to the Haas Livestock facility in Cannon Falls, MN. This location is optimally designed to allow us as breeders and membership to present our live lots in new ways not feasible in the previous location. Our membership has once again risen to the challenge to present breed leading genetic lots, open heifers, bred females and bulls. We welcome you to come join us as this exciting location in Cannon Falls, the heated sale ring area with theater seating are welcome during the frigid February weather. We’re also holding the Annual Membership meeting at the Haas Livestock facility so be sure to join us while you’re there to view the cattle. The Annual Banquet is Friday night (February 26, 2016) at Treasure Island Casino. Room blocks are still being held for Thursday and Friday night of the event if reserved by February 5, 2016.

As I close out my 2nd term as MSA President, I’m truly honored and humbled to have served for such an amazing group of cattlemen and people. In addition to moving our State Sale and Annual Meeting to a new venue after 40 years, our membership also hosted the largest Simmental Regional in history! This is a credit to the tremendous work done by our MJSA members, advisors and parents..... and from the generous support from our MSA Members. This is truly one of the greatest state breed associations in the country and the collaboration we continue to show each other is awe inspiring. Please know that all the work you do throughout the years to promote your programs and Minnesota Simmental is appreciated!

Michael Schmidt, MSA President

Greetings Simmental Breeders,

Welcome back to the Minnesota Simmental Sale!

To say this year was full of accomplishments would be an understatement. First, I would like to congratulate everyone who was apart of hosting one of the most prestigious junior events I have ever had the opportunity to be apart of. My classmates that attended said it was one of the most well run, well organized junior events they have ever attended. This is due to the endless work of both the senior and junior boards. Thank you for supplying junior exhibitors across the country with a experience that they will never forget. This is the conclusion of my term as president, and I would like to thank everyone for allowing me this opportunity. The junior program is being fueled by the involvement of new members and under the guidance of great advisors. I look forward to many more years of involvement.

Ben Markegard, MSA President

New Time: 12:00 Noon Sharp! New Location: Haas Livestock

28701 Rochester Blvd.

**Selling 3 #1 IVF Embryos: W/C Executive Order 8543B x HS Sweet Elegance A5243**

**W/C Executive Order 8543B**
- **W/C Unity 956Y**
  - Miss Werning KP 8543U
  - SVF Steel Force S701
  - HS Sweet Gem X141N
  - Est. Plan Mating EPDs: 12 -25 73 111 9 18 54 * 9.4
  - Carcass: 35.5 -23 .33 -.01 .94 143 79

A full sister to one of the high selling bred heifers at $10,750 in the 2015 Jewels sale, this girl has been super flashy since she was just a baby. Really cool fronted with a soft pastern and big stride, we sold half-interest in her off the farm to Dr. Mike Hein, DVM for $10,000 as a baby and have enjoyed watching her develop into the beautiful, gorgeous uddered cow she is now. She’s just getting started in our donor program with her first calves scheduled to hit the ground this next fall and we can’t wait to see what she can do for us. Her mating to Executive Order should be a really cool combination. Look at the planned mating EPDs on these! CE in the top 20%, BW, WW, and YW in the top 15%, Marb and REA in the top 10 and 20% and an AI and TI in the top 10 and 4%! **Offering 3 IVF embryos and guaranteeing one pregnancy if work is performed by a certified embryologist.**

**Offering 3 IVF embryos and guaranteeing one pregnancy if work is performed by a certified embryologist.**

Breeder: Hilbrands Cattle Company

**Selling 3 #1 Embryos: W/C Executive Order 8543B x AJE Miss Gracie Y7**

**W/C Executive Order 8543B**
- **W/C Unity 956Y**
  - Miss Werning KP 8543U
  - Mr. NLC Upgrade U8676
  - AJE Gabby R7
  - Est. Plan Mating EPDs: 9 .65 77 118 7 23 62 * 10.65
  - Carcass: 40.5 -.30 .35 -.04 .98 134 81

Miss Gracie is just starting to make her name as a hot donor in the Hilbrands Cattle Co donor battery. Fresh off having a $14,500 heifer calf in this past Jewels of the Northland and $15,000 bred in The One in Denver, Gracie is continuing on the legacy, yet making her own path, as the natural daughter of the $250,000+ life time earning AJE Gabby R7. The first reports on the Executive Order babies have been stellar with birth weights averaging from 65-80lbs, accompanied by a stout hip and striking side profile. We think this mating is one to get your hands on and run with. Phenotypically and genetically they should be a home run! Buy with confidence! **Offering 3 embryos and guaranteeing one pregnancy if work is performed by a certified embryologist.**

**Est. Plan Mating EPDs:**
- 9 .65 77 118 7 23 62 * 10.65
- Carcass: 40.5 -.30 .35 -.04 .98 134 81

**W/C Executive Order 8543B, Embryo Sire**

Breeder: Hecksel Simmental Farm

**Selling 3 #1 Embryos: LRS Turning Point 3117A x HSF Victoria P30**

**LRS Turning Point 3117A**
- **MCM Top Grade 018X**
  - LRS Ms. Dakota 559R
  - Nichols Blk Destiny D12
  - BTS 91X Big Sky F632
  - Est. Plan Mating EPDs: 11 1.7 62 92 5 24 54 * 7.2
  - Carcass: 26.9 -.32 .25 -.04 .87 124 69

Here is one of very few opportunities to buy embryos out of the deceased Turning Point. His semen is in very short supply if you can even find any and progeny have been very impressive. Mated to the great Victoria donor that has a life time earning of well over $300,000 and still going strong. We have several due to this mating this winter so we will have a good idea how good this mating will be. **Offering 3 embryos and guaranteeing one pregnancy if work is performed by a certified embryologist.**

**Est. Plan Mating EPDs:**
- 11 1.7 62 92 5 24 54 * 7.2
- Carcass: 26.9 -.32 .25 -.04 .87 124 69

**LRS Turning Point 3117A, Embryo Sire**
Breeder: Lehman Family Simmental

**Selling 3 #1 Embryos: W/C Executive Order 8543B x Brant X91U**

- **W/C Executive Order 8543B**
  - Miss Werning KP 8543U
  - Hooks Shear Force 38K
  - Brant Candace U91R
- **Brant X91U**
  - Est. Plan Mating EPDs: 14 - .6 74 108 11 28 65 + 11.05
  - Carcass: 32.95 - .30 .40 -.02 1.07 158 84

We purchased the X91U cow from our good friends at the Brant Farms Production Sale and added her straight into our donor lineup after she calved. She is a Hooks Shear Force daughter that comes from the potent Candace cow family that was made famous at Ankony in Georgia. As you would expect, she is a super numbered cow that is solid in her genetic profile. She has more power than the average Shear Force daughter and we think that adds to her mating possibilities. We elected to mate her to the hottest young sire going right now, W/C Executive Order 8543B. The progeny out of this mating will be very exciting. The planned mating EPDs don’t get much better. Buy with confidence!

Offering 3 embryos and guaranteeing one pregnancy if work is performed by a certified embryologist.

Breeder: Mueller Farms & Erick Barberg

**Selling 3 #1 Embryos: STF Shocking Dream SJ14 x FVF Glitter In The Air**

- **STF Shocking Dream SJ14**
  - CNS Dream On L186
  - STF Miss J0114
  - FVF Glitter In The Air
  - B C Lookout 7024
  - HHSF Black Glitter
- **FVF Glitter In The Air**
  - Est. Plan Mating EPDs: 14 .2 60 87 6 17 47 + 12.2
  - Carcass: 22.2 - .31 .32 -.04 .78 133 70

FVF Glitter In The Air is a member of the legendary dream cross mating of Black Glitter and BC Lookout. The Black Glitter family is having tremendous success in the sale and show rings, with many high sellers and Champions on a national level. They have proved themselves to be even better in production. Hip, rib, top, bone, shape, dimension and soundness tied into a zip front end are all attributes she possesses. Her first daughter, by Broker, was the 2013 high selling open heifer in THE ONE. Three daughters have shown very well in Denver, all standing second in their classes behind division winners. In her short carrier she has approached the $100,000 mark in progeny and embryo sales. The mating to STF SHOCKING DREAM provides a unique twist in the pedigree and he has produced multiple high sellers and show winning progeny. This mating could be her best yet with the exciting progeny that Shocking Dream has created. You’ll have Fun!

Offering 3 embryos and guaranteeing one pregnancy if work is performed by a certified embryologist.

**Selling 3 #1 Embryos: TNGL Grand Fortune Z467 x AJE Miss Belle Z7**

- **TNGL Grand Fortune Z467**
  - SS Ebonys Grandmaster
  - AJE/HS/MBCC Hope Floats
  - AJE Miss Belle Z7
  - Mr. NLC Upgrade US676
  - AJE Gabby R7
- **AJE Miss Belle Z7**
  - Est. Plan Mating EPDs: 8 .7 66 92 7 24 57 21 11.05
  - Carcass: 25.5 -.39 .17 -.06 .95 124 72

Belle is powerful, super deep bodied, beautiful uttered, thick made female that ties into a long extended beautiful front end. Her cow family is bar none one of the best in the Simmental breed. Her dam, AJE Gabby, has done it all from consistently winning in the show ring on a state and national level to replicating her power and finesse through her banner winning progeny. Her sire Upgrade is the leader in the producing power and style in his progeny as proven in Belle. Her mating to the 2014 Denver Grand Champion, TNGL Grand Fortune will take you to the forefront of the genetic lead time. TNGL Grand Fortune has had an impressive show career which comes as no surprise with his pedigree proven family, sired by the stellar Grandmaster and out of the momentum building donor AHE/HS/MBCC Hope Floats. The planned mating EPDs are as balanced and impressive across the board. The resulting progeny will advance you to the next level. Offering 3 embryos and guaranteeing one pregnancy if work is performed by a certified embryologist.
Breeder: Mueller Farms & Erick Barberg

Selling 3 #1 Embryos:
Mr. HOC Broker x HSF Baby Doll W959

- Est. Plan Mating EPDs: 2 3.6 55 80 -1 16 44 * 7.95
- Carcass: 22.8 -31 -.08 -.08 .49 70 52

HSF Baby Doll W959 is the beautiful baldy female that is extremely hairy, stout boned, and bold sprung that ties a sound structure into a long extended front end. In the 2009 Northern Lights Sale where she was the high selling percentage female and second high seller, she created a lot of excitement. She has a perfect udder and does a fantastic job raising calves. In her short career she has produced over $200,000 in embryo and progeny sales. She has calves that have sold for $16000, $14000, $13,000 and so on. Her dam has exceeded the $300,000 life time earnings mark and Baby Doll is on her pace. Selling choice of three embryos by Broker, he has been a home run hitter on Baby Doll with many high sellers for both us and our embryo customers. Hooks Shear Force put a new twist with a proven sire that has done it all. Bulls or cows Shear Force has made some of the most sought after genetics in the breed. The choice is yours with tremendous success and excitement! Offering 3 embryos and guaranteeing one pregnancy if work is performed by a certified embryologist.

- Est. Plan Mating EPDs: 6 -1.2 65 101 15 29 62 * 9.95
- Carcass: 28.0 -20 .51 -.04 .95 163 79

14P is still a force to be reckoned with in the Simmental breed. Her influence can be found in JS Black Satin's pedigree, who was a dominate heifer in the show ring this year. Also a daughter purchased by Sullivan Farms this year. So if you want a proven producer whose in demand look no further. Offering 3 embryos and guaranteeing one pregnancy if work is performed by a certified embryologist.

Breeder: One Penny Ranch

Selling 3 #1 Embryos:
ABR Sir Arnolds Image x Vintage Blackcap 4340

- Est. Plan Mating EPDs: 17 -1.2 65 101 15 29 62 * 9.95
- Carcass: 28.0 -20 .51 -.04 .95 163 79

The embryos were flushed and frozen by Doug Lain, DVM, of Minnesota Embryo Transfer, Sartell, MN. This is a truly unique SimAngus™ mating combining the one of the best maternal value fullblood bulls in the breed with powerful new genetics from Vintage Angus Ranch in Modesto, CA. The calves from this mating should be black baldy. They will be heterozygous polled and heterozygous black. The donor, 4340, produced 11 frozen embryos in this flush and one fresh ET pregnancy at only 14 months of age. That is early fertility. Offering 3 embryos and guaranteeing one pregnancy if work is performed by a certified embryologist.

**W102** is a big bodied, stout made cow that goes back to the ESN4 donor owned by Pischel Simmentals. **102** is an extremely easy keeping and fertile cow. She was flushed twice, producing 15 and 12 grade one embryos, and bred back to maintain a 12 month calving interval both times. **102** consistently produces deep bodied, powerful bulls and heifers.

Every year, it is hard for us to decide which females to part with but making the choice to part with this one was one of the most difficult. **The genetic background on this bred heifer is as good as it gets here at ASF. Her mother and grandmother are literally the cornerstones of our program for reasons that are far too many to list. Her power and dimension are a true testament to the consistency in her genetics. To put it simply, this one takes the risk out of your decision.** Confirmed bred to Hook’s Xpection, let this one exceed your expectations from day one!

We purchased the Z4 female from the Rydeen family on the Vision XVI sale as the high selling female. RS Hostess B22 was the resulting offspring and has been a standout from birth. Hostess not only has the phenotype that is desired by most, she has the genotape to build from with breed leading traits. The second calf from Z4 was the top pick of our open heifers this Fall, selling to Randy Roberts. With this consistency, Z4 will be in our donor pen. Hostess holds the same potential for her new owner. The mating to our calving ease bull Radar A03 may be the best part of this deal. Check out the planned mating EPDs, they are in the top 35% or better for nearly every trait.

This Titus daughter out of our Elm Mound Joker cow has it all - looks, performance and the backing of an awesome cow. She will work well for you bred to Sure Fire, who we have had great luck with. We hate to see this one go but we want to share some of the best in our herd here. Buy with confidence, she will make a great cow and the Sure Fire mating should yield an exciting calf.

PKS Blanche has done it again! A former show heifer, Blanche is easy fleshing, stout and moderately framed. She calved and fed her feisty W/C Lockdown heifer calf unassisted within minutes of calving. This pair individually have curve bending EPDs but together will propel the herd average of any program upward dramatically for the next decade.

- **Carcass:** 34.7 -.24 .18 .00 1.04 122 73

**Notes:** Sweet fronted, long made, smooth jointed and big topped sums up this beautiful baldy bred. She’s got growth numbers in the top 20 and 15% of the breed respectively for WW and YW, plus a docility EPD in the top 20% and she really is a sweetheart. Easy to break and easy to work. Her carcass EPDs read pretty good across the board as well. Her dam, Ultrastar sold for $9,000 in the 2014 Jewels Sale and is now working for Lynch Farms, IA. Bred up to the big numbered, highly popular Wide Range bull. This gorgeous ¾ blood is a total package!

**Notes:** Here is a rare opportunity and one of the last to purchase a direct daughter out of one of the prolific cows in the Simmental breed, CNS Antionette P403. Her dam topped the Denver sale a couple years ago at $35,000 and then passed away soon after. Blossom is long fronted, long bodied, big footed, sound structured, good hipped, halter broke and has a great personality. Let’s just say she likes attention. She is bred to Hall’s Confidence A30, the Supreme Champion Bull at MN State Fair and Reserve Grand Champion SimAngus Bull in Louisville last fall. The ¾ blood calf that results should be stellar on paper and in person. If you are in search of a royally bred female, Antoinette’s Blossom may be just what you have been looking for.

- Carcass: 15.6 -17 .10 .00 .58 99 56

This hairy white snip nosed heifer is moderate made, smooth jointed and good boned. She’s got a milk EPD in the top 4% of the breed and being backed by our donor matriarch, Pearl, has got definite cow power in her blood. Her mating to the proven calving ease sire No Remorse could be really special. A complete outcross to a lot of today’s most popular pedigrees and a blend that should really work. No Remorse continues to gain in popularity for his ability to calve easily without sacrificing bone and substance, while giving his calves a lot of style and look.

CANDY CRUSH is the natural daughter out of “Sugar”, the 2012 Brant Farms pick of the breds. Along with Built Right who continues to gain popularity, she is “Sweetness” influenced through her Final Product sire. This deep sided, moderate framed heifer comes from a family of easy keeping, big barred females. B3077 is doing a great job raising her Goldmine bull calf. He came just the right size and is developing into the wide-topped, muscular star of the show. This Candy Crush/Suga pair will advance you to the next level. Log in and be a player.

Whoa...who didn’t hear about the Built Right x Power Drive x 02K females selling in Denver! Out of a full sister in blood to the 3 females that recently sold for $140,000, Delight is impeccably bred when it comes to profitable cow families that have stood the test of time. Sired by W/C United, you will appreciate her smooth shoulder, depth and spring of rib, and big hip. We like this soft bellied one a great deal and is sure to be a sale feature! It’s a no-brainer. Calve her out and move her into the donor pen. She is the herd building kind, and the homework has already been done.

The seller wishes to reserve the right to a flush with a minimum of 6 transferable embryos at the buyer’s convenience and the seller’s expense.

Finess is a royal breeding piece. With her sire, Broker, one of the most purple producing sires of all times, and a maternal sister to JSMF Flicka on the bottom side, she has endless possibilities. Finess is ultra feminine and balanced with her clean extended front end, long spine and smooth sound structure. Her baldy face is a favorite of many. Kid broke, Finess was successfully shown last summer by a 10 yr old. Safe to W/C United 956Y for a ¾ blood calf with no bull exposure. She’s a win-win package!

*Everyone is always looking for a good purebred to add value to their cow herd. Bedazzled is just that. Moderate and functional in her look, this black Grandmaster daughter has all the parts to be a front pasture cow for years; easy fleshing, sound on the move and a big ol’ belly. She sports a solid set of EPDs across the board that make her a great breeding piece for any progressive cattlemen in the industry today. Her dam is a good young cow with a great udder that was purchased from Ryan Hecksel. She stems back to the Tabatha cow family that Ryan has had a lot of success with. She sells bred to the calving ease New Direction son, GLS Boss B120, for an early April purebred calf. Boss was a highlight off the GLS sale that Neil and I used heavily for his functional phenotype and merit as a calving ease specialist. We feel his calves will have a lot of value when they hit the ground this spring. Bid with confidence, the homework is done here.*

C2A is one powerfully made, big footed, massive Upgrade daughter. She is going to make a tremendous breeding piece. She is not only impressive to look at but she reads fantastic on paper. She has great growth numbers, a high API, and excellent carcass numbers. She was purchased last spring as her and her dam were our pick at Brand Farms Production Sale. Her dam was flushed right after purchase producing 21 embryos and then bred back at the very next heat. We selected Albany to be our next donor for her combination of excellent phenotype and terrific numbers and this C2A is sure to follow in her footsteps.

What happens when you cross a breed leading black bull, with a MN State Fair division champion black cow? Well, of course you get a stunning red female! The genetics on this heifer are self explanatory, and quite honestly so is her picture. If you are looking for a show prospect that will set you apart from the rest in the ring, this one is it. If you are looking for a female that will be a front pasture cow in the future, this one is it. Just take a look at the design this heifer offers and combine it with that deep cherry red color and black nose, and it’s easy to see that you don’t find breeding pieces like this just anywhere. She is truly one to Cherish!

This younger April baby has a lot to offer. Chloe is a neatly designed heifer that is a little bit more moderate framed but doesn’t lack in shape or body capacity. She is proportioned in terms of her depth and width, and is straight in her lines. Her feminine front end blends into her middle third nicely that is set on a stunning foot and leg pattern that hits her stride every time. Her dam, out of the well known Expecting A Dream is a stout, big boned and bellied cow that does a tremendous job raising calves for the show ring that can return to the pasture and make awesome cows. Her sire, Chip, was our herd bull who made calves that are high performing, easy calving and have the ability to grow. Don’t let the age get you on this one!

If you’re a sucker for the chromed up ones, look no further. Honeysuckle is a uniquely bred purebred that carries a huge belly, a thick top and a nice square hip to complete her. Not only does she have an attractive phenotype, she is just as impressive genotypically. Her dam, out of In Dew Time, has been a top producer for us containing one of the best udders and an excellent disposition. Stetson, her sire, does a tremendous job producing some flashy calves that are square hipped and cool profiled. Combining the dominant Steel Force and the great Victoria cow from Hecksels, it’s no surprise how his calves make it to the top. A great opportunity to buy into some predictable genetics.

Another May baby we only held back for a later sale because of her age and check out the front end and rib shape in this one! Wow, is all I can say, she is so long fronted and clean made through her front one-third and blends it beautifully into a huge belly with tons of rib shape and dimension. She’s good hipped, great on her feet and legs and to top it all off, look at the genetics on this one! A full sib to the $15,000 HS Sweet Gem X141N there’s a ton of potential in this one. An API and TI in the top 35 and 30th percentile respectively, show her, make her a donor, you decide! Her dam, Sweet Gem, did a ton of winning back in her show days for the Nelson family and this little lady just might be ready to carry on the family tradition!
Talk about a May baby that can walk the walk and talk the talk. This girl is pretty darn cool. She’s so well balanced from head to toe, she’s got bone, a strong top, great feet and legs and lots of hair! Maternal sibs include the $40,000, 2015 World Beef Expo Supreme Champion bull, Absolute; the $20,000 Glowing Image, the $10,500 Neon Splash, the $10,500 Neon Candy and the $7000 Neon Sky. Neon’s first daughters just entered production this past year and they are absolutely beautiful, big bodied, gorgeous uddered cows doing a knock-out job. Her sire, PKS Zeus, might be unknown to you, but take note, his first daughters are just entering production for us this spring and they are really nice! He’s backed by a gorgeous Pacesetter cow working for Krueger Simmentals. We only held this one back for a later sale because of her age! Take full advantage here, tons of potential!

RS Mr. Broker C02

Mr. HOC Broker

SVF Steel Force S701

JM BF H25

GLS Precious Y100

GLS/GF Brigade 31R

CMB Precious P227

Broker cattle have been some of the most stylish and eye appealing around and this guy is no exception. The mating to our donor GLS Precious Y100 produced a clean fronted long spined and growthy bull. RS Mr. Broker C02 will breed in some style and performance producing your next show calf and a very eye appealing cow herd.

Study this pedigree carefully. Brilliance times a full sister to the infamous HS Stop N Stare U118L. The Stop N Stare offspring have been demanding top dollar at sales all over the U.S. This herd bull prospect lives up to the pedigree. Truly three dimensional, an 816 lb actual weaning weight on a first calf heifer, and was the highest ratio bull. Selling full possession and 50% semen interest.

Sterlings Windchime 30Z
New Trend Way Cool 6W
Jass Wind Chime 05W

Big, stout, powerful all describe this Power Drive clone son. Out of an ET daughter of Willie Altenberg’s Dream Catcher donor. Two full sibs have sold the Sioux Empire Farm Show in previous years, both in the $4,000 to $5,000 category.

A really good younger bull out of the calving ease Angus sire Upshot. His dam is an outstanding Way Cool daughter out of the Sterling Cattle donor, Wind Chime 05W. She was one of the previous high sellers in a North Central Sale. The guess work is gone here.

**Adj. WW:** N/A

Cash is a powerfully constructed 3/4 blood son out of Integrate. When I visited with Paul Krueger about using Integrate, he said you will love the performance and look of those calves. He was right. Cash’s dam is a real functional cow in our herd that just flat gets the job done - great uddered, breeds back on time every year and always has a keeper at weaning. This blaze faced stud displays a tremendous amount of performance visually. Stout in his build and sound on the move, Cash has plenty of power from every angle. With all the muscle he has, he is still fun to look at from the side, neat and attractive through his front third. His progeny will be fun to look at and easy to sell. A commercial producer can take him home and add value and performance to his calf crop. Purebred operators looking for an outcross bull (no Dream On in the pedigree) and a balanced set of EPDs should take note as well. Whoever ends up with him at the drop of the gavel, your investment in Cash should lead to dividends in the near future.

Here’s an exciting March herd bull prospect out of Silveiras Style. Magnum is deep bodied, cool profiled and has a huge hip that is set on a big foot and leg pattern. Looking at his EPDs, you’ll notice his 15.8 calving ease, a negative birth weight and a 150 API. On top of that Magnum and his mother were the 2015 Minnesota State Fair Open Show Reserve Champion Foundation Simmental Cow/Calf Pair. Be sure to check him out sale day.

Commander is a powerful son of Fat Butt and one of our best cows, Daisy. He has a balanced EPD profile and will be an asset on any set of cows. He has been a favorite in the pasture all summer with his attractive profile and baldy face. Commander is a heavy boned, powerfully made bull that has that extra growth.

A true combination bull here. When you study Official from any angle, he does not disappoint. He has excellent muscle and rib shape. Very sound on his feet and legs. A bull that stems from as much maternal power as there is out there in the SimAngus™ breed.

**2 Units of Remington Lock N Load 54U Semen**

Breeder: Paul Krueger

Remington On Target 2S
Remington Red Label HR
Drake Soft Touch 15M
Bar15 Miss Knight 78E-51G
Bar15 Miss Knight 83Y-78E

A historical sire in terms of adding muscle in the right kind of package. Lock N Load may have had the most impact on the Simmental breed with the least amount of semen used of any bull. His sons and grandsons are wanted by the most progressive commercial ranchers across America. Very limited semen available.
